THE SUCCESSFUL BRAND
FOR TYRES AND WHEELS

The successful brand for tyres, wheels and sensors

Since 1987 PLATIN has stood for fascinating wheel designs and innovative tyre technology with an outstanding price-performance ratio.

The wide range of unique PLATIN wheels with alloy wheels from 14 to 20 inches in more than 30 different designs leave just about nothing more to be desired. All PLATIN wheels are TÜV-tested and have TÜV certification and a corresponding ABE. PLATIN quality tyres round out the range with summer, all-weather and winter tyres for cars, vans and light trucks in more than a hundred current sizes.

PLATIN tyres are developed on the basis of the very latest tread mix and profile technology and manufactured in modern production plants by leading tyre makers.

Since 2021 you can benefit from our successful PLATIN Sens hybrid sensors, which cover approx. 90 % of the market requirements.

Discover the whole world of PLATIN wheels, sensors and tyres on platin-wheels.com

PLATIN SENS

TPMS Sensors – Made in Germany

PLATIN Sens TPMS sensors are what are known as hybrid sensors, which already incorporate numerous OE original equipment protocols.

The PLATIN Sens hybrid sensors cover approx. 90 % of the market requirements. In addition, a PLATIN Sens universal sensor is available which can be individually programmed.

All PLATIN Sens sensors can be reprogrammed at any time with standard diagnostic devices (Ateq, Bartec).

PLATIN Sens with a metal valve have a fixed valve angle (10°) and are lightweight. The sensors are available in silver, grey and black – to match the colour of your wheels. There is also a version with a rubber valve.

PLATIN Sens – Made in Germany – is the perfect accessory for your PLATIN Wheels and PLATIN Tyres: platin-sens.com

**Fuel efficiency class / Wet grip class / External rolling noise class (value in dB) as per Directive Number 2020/740 - Vehicle class C2

Subject to alterations.

RP 320 SUMMER

- Better grip and improved handling on dry roads due to the asymmetrically arranged profile blocks
- Increased resistance to aquaplaning and improved grip in the wet thanks to the broad middle grooves and a narrow groove next to the outer shoulder
- Optimal braking performance and improved handling through the use of sipes with multiple angles in the profile shoulders

RP 420 SUMMER

- High reserves of safety in the wet thanks to the circumferential drainage grooves and hydrodynamically-shaped transverse grooves in the shoulder area
- Superlative braking and better performance on wet roads through curved sipes in the inner and outer shoulders
- Reduced rolling resistance and better braking behaviour in the wet with a high proportion of silica and new polymers

RP 520 VAN SUMMER

- Good dry and wet performance
- Balanced driving efficiency
- High driving comfort due to low noise level
- Optimized contact area between the tyre tread and the road results in good braking performance on dry roads
- High driving stability and longer tyre life
- Latest tyre technology for maximum security

**Fuel efficiency class / Wet grip class / External rolling noise class (value in dB) as per Directive Number 2020/740 - Vehicle class C2

Subject to alterations.

RP 100 ALLSEASON

- Broad tread area for optimised handling and more traction
- Reduced risk of aquaplaning thanks to broad transverse grooves in the shoulder area and the quick removal of water due to the higher negative proportion
- Modern silica tread mix for reduced rolling resistance and excellent wet-grip
- High level of economy and savings of fuel in the interests of the environment
- Can be used without restriction all year round, with M+S and snowflake symbol (in accordance with section 2 para. 3a of the German StVO traffic regulations)

Cars all-weather

RP 700 VAN ALLSEASON

- Good resistance to aquaplaning and short braking paths on wet roads
- Improved grip on snow
- Strong braking performance on snow-covered roads
- Good directional stability and safe cornering on dry, wet and snow-covered roads

VAN all-weather

FR = WEP Wheel edge protection | XL = Extra Load

*Fuel efficiency class / Wet grip class / External rolling noise class (value in dB) as per EU Directive Number 2020/740 - Vehicle class C1

**Fuel efficiency class / Wet grip class / External rolling noise class (value in dB) as per EU Directive Number 2020/740 - Vehicle class C2

Subject to alterations.

NEW

RP 70 WINTER

- Profile with fixed rolling direction and optimised tread compound
- Excellent handling, optimised grip and safe braking on snow-covered roads
- Safe driving on wet roads
- Outstanding handling and braking on dry roads
- Lower fuel consumption and CO2 emissions

Cars winter

RP 610 WINTER

- Excellent traction and good braking performance on snow and ice
- Short braking path in the wet and a low aquaplaning risk
- Increased level of riding comfort due to a low level of road noise
- High economy due to optimized running performance and low rolling resistance

VAN winter
